INFORMATION IN LINE WITH THE REQUIREMENTS OF ARTICLE 30 (1)(B)(IV) AND (V) OF REGULATION (EU) 2017/460

1. RATIO OF REVENUE FROM CAPACITY BASED PRICES AND REVENUE FROM COMMODITY BASED PRICES

The distribution factor of the allowed revenue, covered by capacity and commodity based prices beyond the revenue from the technological component and the component covering the obligations to the public of the transmission price, approved by EWRC with decision no.НГП-1/02.10.2020 on the basis of article 18, para 3, item 1 of The Methodology setting the prices of access and transport through Bulgartransgaz EAD networks:

- 85%, covered by capacity based price;
- 15%, covered by commodity based price.

2. RATIO ENTRY-EXIT - RATIO OF REVENUE FROM CAPACITY BASED PRICES AT GAS TRANSMISSION ENTRY POINTS AND OF REVENUE FROM CAPACITY BASED PRICES AT GAS TRANSMISSION EXIT POINTS

The distribution factor of the allowed revenue, covered by capacity based prices at entry and exit points/zones, approved by EWRC with decision no.НГП-1/02.10.2020 on the basis of article 18, para 3, item 2 of The Methodology setting the prices of access and transport through Bulgartransgaz EAD networks:

- 50% of the allowed revenue, distributed to be covered by capacity based prices, to be covered by the entry points/zones of the gas transmission system;
- 50% of the allowed revenue, distributed to be covered by capacity based prices, to be covered by the exit points/zones of the gas transmission system.

3. RATIO OF REVENUE FROM COMODITY BASED PRICES AT GAS TRANSMISSION ENTRY POINTS AND OF REVENUE FROM COMMODITY BASED PRICES AT GAS TRANSMISSION EXIT POINTS.

In line with article 22, para. 3 of Methodology setting the prices of access and transmission of natural gas through Bulgartransgaz EAD networks
The revenue of the total component of the commodity price and revenue from the technological component of the price shall be split 50% / 50% from entry and exit points of the gas transmission system.
Revenues from the component of the commodity-based price covering the obligations to the public are collected at 100% at exit points of the gas transmission system to natural gas customers on the territory of the country.
